

Summary

Adrian Jackson

a.jackson@epcc.ed.ac.uk

Summary

- ARCHER2 has significant resources for data scientists to exploit
- Primarily designed for large parallel applications
 - Can be exploited for larger number of smaller applications
 - Can use the high performance file systems
- Software generally available or possible to port to the system
 - Optimised central installs
 - Containers
 - Support for the helpdesk and others
- Optimising usage important in the long run
 - Placement, compilation, etc...
- Feedback
 - <https://www.archer2.ac.uk/training/feedback/?course=230411-data-scientists>
